

SOLAR PANEL SELECTION GUIDE

Infinite Energy will only supply solar panels that have:

AN AUSTRALIAN PRESENCE:

- Manufactured by a large reputable international company with a significant presence in Australia.
- Manufacturer has a warranty process and service support that is accessible in Australia.

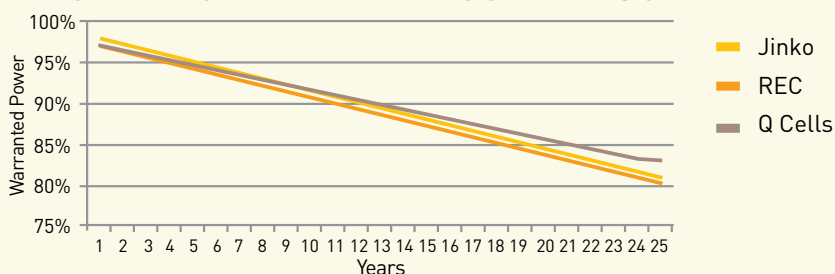

QUALITY ASSURANCE:

- Infinite Energy is satisfied that there are stringent quality control processes and procedures.

Whilst Infinite Energy can source most panels on the market we believe these four panels stand out as superior. Here is a comparison:

SOLAR PANEL MOUNTING SYSTEM

SUNLOCK AUSTRALIA

Infinite Energy uses the Australian, designed and manufactured, Sunlock Mounting system.

The system is made from aluminium and features a highly versatile design which has adjustability and expandability to suit any size job.

The system is corrosion resistant that makes the system low maintenance with an extended life cycle.

The system is backed by a 10 year warranty and complies with the Australian/New Zealand Standard on wind loads.

SYSTEM INVERTERS

A crucial component of your Home Solar Energy System is the inverter. Inverters convert the DC electricity produced by the solar panels into AC electricity that your home and the grid utilise. Infinite Energy recommends opting for a high quality inverter that has Australian warranty support. Below are some features to compare:
